13th Decr. 1935

Dear Enrol!

Ronnie enquired of me if I could give him any information as regard his Mothers Will & Estate.

As I had not seen the Will I could not give him the information he required - He then obtained a Copy of the Will.

We find that her Estate was to be invested, and that the Children were to be maintained until they reached the age of 21 years - after that the proceeds from the investment would go to you, and at your death the principal would be equally divided between her Children - As I have been maintaining the Children since Rita's death, in ignorance of the Will, I would like to know your intentions as regard past & future maintenance - As Ronnie wishes to be -
Back Street.

informed also, I will be glad for
you to reply in writing.

Faithfully yours
Edwin Croney

Dear Edwin

I have to ack your letter of yesterday's date. I think that ~~the~~ if Ronnie wished to know anything about his mother's will that he should have applied to me the qualified Executor.

2. You say in your letter that you have been supporting ~~Bob~~ in since Rita's death in ignorance of her will. That is not true. I paid board of \$1000. per month for Michael whether he was at Bayans or at the Lodge School up to the month ~~before~~ ~~he~~ left The Bayans. I paid for his clothes books and school fees up to the end of ~~September~~ ^{November} last year.

3. When I came to you at the end of last year and asked you to take over the expense of his schooling etc I then told you about the provisions of Rita's will.

4. Early this year it was drawn to my attention that Bldg S+T. shares were not master stocks and as I had some of Rita's money invested there I sold them and I have the money in four I-b. ops. These ops are specifically mentioned in my will. Made a few months ago, as belonging to the estate of

Aug 14/4. did I have not drawn any of the interest credited to the a/c's and I do not intend to, but to allow it to accumulate for the benefit of R & M. Trustee Securities are at such a high premium that I think it better to place the money in the S.S.

5. I pay, out of my own pocket, the sum of \$194.00 yearly as a premium on the life of R & M. I have directed in my will that at my death these two policies ~~should~~^{are to} be handed over to them if they are 21 or to you and Emma as guardians if they are under 21, to do with as you think best.

6. I shall be glad to know that the above explanation has removed from your mind the suspicion implied in your letter that I was benefitting from the income received from Rita's estate
